With the completion of the schedule that is to govern the games of the five teams interested in the recently organized state interscholastic league, aspirants for the basketball team that is to represent Spaulding high school in the league are anxiously awaiting the call for candidates. Charles E. Brown of the high school faculty is to coach the Spaulding team and several of the men who were numbered in the squad last year are available. While definite plans for the conditioning season are yet to be made, it is expected that preliminary practice will begin soon after the Thanksgiving recess and a few exhibition games may be played by Spaulding before the night of January 5, when Spaulding and Montpelier seminary officially open the season in a game at the capital. A flock of wild geese headed due south and apparently with no regard for the fact that Vermont is offering the best brand of autumn weather to be had anywhere in the East, was discernible this morning, according to early risers. The flock was scarcely large enough to becloud the sky, but the peculiar contralto notes of the wild waterfowl could be clearly heard and after patient waiting the watcher was sure to be rewarded with a glimpse of the birds.

Miss Georgina Brock entertained a score of her friends at her home on Warren street last evening, the occasion being a celebration of her birthday. The party was a cleverly arranged affair with many original games introduced. Music was a prominent feature of the program, vocal solos by Miss Agnes Keith and piano selections by Miss Vera Brock being especially well received. Light refreshments were served, after which Miss Evelyn Chesser distributed favors among the guests as souvenirs of the occasion. Miss Brock was the recipient of many appropriate gifts.

One of the vagaries of an autumnal season that has been prolific of about everything in the weather man's kit, albeit there has been a preponderance of fair days, is the opportunity for plowing which unusual conditions present to the farmer. One of the tillers of the soil in the city to-day stated that the recent flurry of snow has worked to the material benefit of the farmer, inasmuch as it loosened the soil and permitted the use of the steel furrow in sections where it has been customary to do the plowing in the spring time.

Thanksgiving!

Reasons for Thanksgiving

One of the things a great many of us can be thankful for this year is that we aren't being measured by an army tailor for a nice suit of khaki.

Just the same—the approach of a holiday season ought to remind you that you need new clothes. An overcoat, certainly—perhaps a Tuxedo or a full dress—or just a good, serviceable business suit. Come in and browse around among our new

ADLER-ROCHESTER CLOTHES

You'll find reasons a-plenty to be thankful—for you've never been able heretofore to make your money bring you so much style and value in a suit or overcoat.

Young men who seek the extra smartness of youth in their clothes will find Adler-Rochester Suits designed by a young man. Older men who want the more conservative styles are shown a wide variety of smartly correct garments.
